NOTE:

After the Certificate of Correction was originally filed, someone (Lamont) informed Mike Lee that the Information Disclosure Statements (IDSs) were needed that supported the Certificate of Correction. Attached are all of the IDSs that were filed at the PTO along with a more descriptive Request for Certificate of Correction. The PTO/SB/44 form did not change, but the Request form did. I am new in this field, so I am not sure what is allowed, but if this can replace the old Request for Certificate of Correction, that would be appreciated. I will be out of the office from Tuesday (7/3) noon till Sunday and will return to the office on Monday (7/9). If you have to contact me, then you could reach me on my cell at 803-316-5508. Thanks, and have a great week!

Patent. No.: 7,209,725

Issued: April 24, 2007

For: **Analog Zero IF FM Decoder and
Embodiments Thereof, Such As
The Family Radio Service**

Confirmation No.: 7304

Art Unit: 2686

Examiner: Naghmeh Mehrpour

Atty. Docket: 1744.0250001

**Request for Certificate of Correction
Under 37 C.F.R. § 1.322**

Attn: Certificate of Correction Branch

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

It is hereby requested that a Certificate of Correction under 37 C.F.R. § 1.322 be issued for the above-captioned United States Patent. This Certificate of Correction is being requested due to mistakes which appear in the printed patent. These mistakes were made by the U.S. Patent and Trademark Office.

Specifically, the printed patent contains the following errors for which a Certificate of Correction is respectfully requested:

Title page, item [56], References Cited section, please add the cited references in the attached PTO/SB/44 form. These references were filed at the PTO in the following manner: Information Disclosure Statement filed January 11, 2002, Third Supplemental Information Disclosure Statement filed July 11, 2003, Fourth Supplemental Information

Disclosure Statement filed September 3, 2003, Sixth Supplemental Information Disclosure Statement filed July 13, 2006, Eighth Supplemental Information Disclosure Statement filed May 7, 2005, Ninth Supplemental Information Disclosure Statement filed October 19, 2005, Eleventh Supplemental Information Disclosure Statement filed May 8, 2006, Thirteenth Supplemental Information Disclosure Statement filed November 7, 2006, and Notice of References Cited dated July 25, 2006. All references contained in the previously stated Information Disclosure Statements were visibly initialed by the Examiner but missing from the issued patent except for some references contained in the Ninth and Third Supplemental Information Disclosure Statement. The foreign and non-patent literature documents on the second page of the Third Supplemental Information Disclosure Statement were filed but not included in the issued patent because they were neither signed or crossed out. It was believed that the Examiner overlooked these references and that they should be included in the issued patent. It was ambiguous from the file wrapper whether the Examiner even considered the Ninth Supplemental Information Disclosure Statement.

Remarks

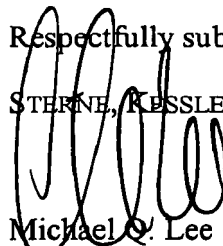

The above-noted corrections do not involve such changes in the patent as would constitute new matter or would require reexamination.

A completed Form PTO/SB/44 accompanies this request, with the above-noted corrections printed thereon. Accordingly, a Certificate of Correction is believed proper and issuance thereof is respectfully requested.

The Commissioner is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

Respectfully submitted,

STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.
